

"Saved Her Life."

MR. JOHN WALLET, of Jefferson, Wis., than whom none is more highly esteemed or widely known, writes: "In 1891 I had a severe attack of LaGrippe and at the end of four months, in spite of all physicians, friends and good nursing, could do, my lungs heart and nervous system were so completely wrecked, my life was despaired of, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie in one position but a short time and not on my left side at all. My husband brought me Dr. Miles' Nervine and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took about a dozen bottles and was completely restored to health to the surprise of all."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

In
Medicine
Quality
Is
Of
First
Importance.

You
Can
Obtain
Quality
From
Us
Always.

It has long been our custom and will continue our custom as long as we remain in business to handle only drugs and chemicals which we absolutely know to be of superior strength and purity.

No Doctor can obtain the desired results in the sick room unless his prescriptions are filled as he intended them to be, i. e., with drugs of the highest quality. The sick room is the one place above all others where quality counts above everything else. If you want the patient to improve; to respond to the physician's labors, you must be particular with the medicine. You must have his prescription filled with nothing but pure and fresh drugs and chemicals. We cordially invite your patronage and assure prompt attention and courteous treatment.

WINE OF CARDUI

HEALTHY OLD AGE.

LABOR, BENTON CO. ARK., Aug. 4.
I am 40 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.
MRS. E. B. TOWNSEND.

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand.

DESIRE FOR PEACE

Report That a Meeting of the Filipino Congress Has Just Been Held at Sanisidro.

AWAITING FRESH TROOPS

General MacArthur Will Remain at San Fernando Until His Exhausted Men Are Replaced - Bacolet Entrenched on Three Sides by 8,000 Filipinos - Schurman Commission.

Manila, May 11.—Reports received from the insurgent line which, however, have not been confirmed, say that a meeting of the Filipino congress has been held at Sanisidro. There was no quorum present, but in spite of this fact some business was transacted. The reports add that although those who attended were mostly partisans of Aguinaldo, a strong desire for peace was expressed.

General MacArthur will probably remain at San Fernando until fresh troops can be forwarded to him from this city to replace some of the volunteers who have become exhausted from the long campaign. Filipino riflemen to the number of 8,000 are entrenched on three sides of Bacolet. The Americans, however, are fully able to hold the city if Monday's attack was a specimen of the enemy's fighting ability.

The United States Philippine commission has been considering a provincial constitution for the island of Negros, which was framed by Colonel Smith and leading natives. It is largely modeled after the constitution of California. While it has many good points, the commission will probably recommend a uniform government for all the provinces. This constitution, it is intended, will give the natives self government, co-operating with the military regime. Work on the constitution has been apporportioned to the several members of the Philippine commission. The report of President Schurman will give special attention to national, provincial and municipal government; Colonel Charles Denby will consider the organization of courts, and Professor D. C. Worcester will investigate tribal, physical and commercial features in the islands.

All members of the commission are consulting with resident experts.

GENERAL FUNSTON

Writes a Letter in Which He Hopes He Has Proven He Is Not a "Fake."

Kansas City, May 11.—Under the date of Stanford University, Cal., The Star prints excerpts from a letter from Brigadier General Frederick Funston, whose brilliant work with the Twentieth Kansas regiment in the Philippines has won him fame, to Professor Kellogg, a former fellow student in the Kansas State University. In his letter, which is dated April 19, the Kansan gives the first intimation so far made by him regarding a political career. He says: "I cannot think there is much in the talk about doing the handsome thing by me. Politically, the rank and file of the Republican party might be willing, but how about the bosses?"

General Funston apparently remembers some of the criticisms in connection with his Cuban campaign when he says: "Now I have proven a dozen times at the risk of my life that I am not a fake," and it is his main hope that his record in the Philippines may satisfy the former critics.

THE YOUNG MOTHER

devotes herself to her first child as she never does to another. As child succeeds child she no longer reads them stories, tells them tales at twilight or joins with them in a merry romp at bed time. Does she give her later children less because she loves them less? No. She gives them less because she has less to give. The birth of each child has left her a little more nervous, a little more worn out. She hasn't strength to be their intimate and playmate. What a loss this means, to mother and to children. It is to such

mothers, worn with the burden of motherhood and drained of vitality, that Dr. Pierce's Favorite Prescription comes as the greatest of blessings. The timely use of this remedy prevents the strain and stops the drain from child bearing. Where this strain and drain have been experienced, mothers find that Dr. Pierce's Favorite Prescription acting directly upon the delicate organs which bear the burden of motherhood, restores them to a normal condition of health and elasticity. Ulcerations are cured. Inflammations are removed. The appetite becomes good, sleep is refreshing, the nerves grow quiet. There is a new brightness in the eye, a new lightness in the step. There has come the perfect happiness of perfect health.

"I began taking your 'Favorite Prescription' in August, 1897," writes Mrs. Mollie E. Grimes, of Flomaton, Escambia Co., Ala., "and took it until after my baby was born. I was in better health than I ever was with any of my other children. I think all women with child should use Dr. Pierce's Favorite Prescription. I suffered everything that flesh could suffer with all the rest of my children, and I was also subject to miscarriage. Now I am the happy mother of a fine baby girl. She was the largest one of my babies and she lived and thrived and was easier and shorter time than I ever had. I am stouter and healthier than I ever was."

Continuing, General Funston mentions some of the battles in which he and his men engaged in the Philippines, saying: "We had a number of good stiff fights in which all of the troops behaved splendidly, and carried everything before them. Kansas can always be counted on out here to take a place in the vicinity of the bandwagon."

PROTECTING MANILA.

The Provost General of Manila Makes a Report.

Washington, May 11.—The adjutant general has received the report of General R. H. Hughes, provost marshal general of Manila, giving an account of the fires which occurred in Manila in the early days of the rebellion. The report is indorsed by General Otis, who says that it should be stated that General Hughes was present in person during the period covered and directed all the operations about Manila and saved the city from conflagration. General Hughes' report shows that the fires were clearly incendiary and that even after they started the Filipinos tried in every way to prevent their extinguishment. The firemen were shot at by persons concealed in houses and efforts were made to puncture the hose. General Hughes commends the troops for the service they performed and also speaks in high terms of the English volunteer fire brigade. The troops were detachments of the Twenty-third infantry, Second Oregon, Third Minnesota and Tenth Pennsylvania.

Coal Shipments.

Pittsburg, May 11.—Coal shipments by river to Louisville, Cincinnati and the south yesterday aggregated 3,500,000 bushels. Great difficulty was experienced in engaging enough deckhands to man the boats, although wages were advanced from \$35 to \$60.

IOWA TROOPS

Fighting Under Serious Difficulties in the Philippines.

Des Moines, Ia., May 11.—Governor Shaw is in receipt of a cablegram from Colonel John C. Loper commanding the Fifty-first Iowa volunteers at Manila, which says: "The regiment has been on the north line for three weeks in the trenches fighting and doing brilliant work. Five engagements have been fought between Quinga and Calumpit since May 4. The First and Second battalions under my command led the advance of Hale's brigade from Alpalit to St. Tomas. We had hot fighting through many miles of muddy swamps, wading sometimes to our waists in mud. We also forded three rivers in five hours. On May 5 our regiment assisted in taking San Fernando Lier, the insurgent capital. The First and Second battalions were the first soldiers to enter the insurgent camp."

OLEOMARGARINE

Swelt Millionaires at Chicago Palm It Off on Their Guests.

Chicago, May 11.—Fear of social degradation keeps many a millionaire of Chicago from acknowledging the fact that he uses oleomargarine in lieu of pure butter, according to William Broadwell, a witness before the pure food investigating committee yesterday.

"It's the strangest kind of a game," the witness said to Senator Mason, "this deception that is going on simply because a man is too proud to let his friends know that he is using anything that is not the real article. It would surprise you if you could learn of the millionaires that come into my store every day and carry home their little package of oleomargarine and then palm it off on their well friends as the real butter."

CATHOLIC KNIGHTS

Question of Admitting Women to the Order Creates a Warm Debate.

Kansas City, May 11.—The 12th biennial council of the Catholic Knights of America opened here yesterday with nearly every state represented. One of the most important questions to come before the council is on the point of admitting women to its membership. The first indication of opposition to the plan came yesterday morning in the form of a debate as to the consideration of the law committee's report. The opponents of the amendment wanted to take up the question then, but a motion to postpone the report was carried.

PRESIDENT M'KINLEY

Giving Some Attention to His Forthcoming Civil Service Order.

Hot Springs, Va., May 11.—President McKinley, while here for rest, is giving some attention to the forthcoming civil service order. He has a number of papers before him relating to the matter, but is handicapped by being absent from touch with the officials upon whose judgment he must depend to some extent for the effect of the order in the various departments of the government. The formal final order need not be expected for some days.

Whether it is the effect of his absolute relaxation from duties, the dry atmosphere, or the result of his medicinal bath or of them all, the president is recuperating rapidly.

A gentleman who has known him for many years, after seeing him yesterday, said that he never knew the president to appear to be in better health. His color, he explained, was an apparent statement of facts in itself.

Friends of the executive are much annoyed by stories that Mr. McKinley is smoking excessively and injuriously. Friends in our new island possessions have sent him quantities of cigars of various brands, but they have remained untouched. An after-meal cigar is a source of thorough enjoyment to the president, but he does not indulge himself to an extent that is harmful.

PEACEABLY SETTLED

Difference Regarding the Line of Matcafa's Withdrawal Outside of Apia.

WORK HAS BEEN RESUMED

On the Plantations Near Vailele—All Houses in the Neighborhood of Apia Strongly Occupied by Tanus' Warriors—Chief Justice Chambers Gives Judgment For King's Salary.

Apia, Samoa, May 4, via Berlin, May 11.—The difference which arose regarding the line outside of which the Matcafa's agreed to withdraw has been peaceably adjusted, and work has been resumed on the plantations near Vailele. All the houses in the neighborhood of Apia are still strongly occupied by Tanus' warriors.

Tanus has lodged complaint with the supreme court against the administration of the treasury, which is now controlled by the consuls of Germany, Great Britain and the United States, pending Dr. Solf's assumption of the duties. Tanus demands that he be paid a monthly salary of \$150, which is three times the amount paid to Malietoa Tanumafili. The United States consul, Lieutenant Osborne, acting as cashier of the treasury, refused to pay the money demanded, but the chief justice, Mr. Chambers, gave judgment in favor of Tanus for the amount claimed.

FRANCE'S DARK DAYS

Suspicion of Corruption Falls on the Government of the Republic.

Paris, May 11.—Major Esterhazy's interview published in The Matin has roused the government to contradiction of the commandant's statements. But more than that, it has stirred up a most terrible suspicion that the government is not clear of complicity in the terrible national scandal.

The temporary lull in the cabinet crisis is that which precedes the storm, and it is freely predicted that the end of the ministry is not far off. Neither Esterhazy's charges nor Picquart's letter contradicting the testimony of General Goussier may contribute to the fall, but the evidence that is given the statements of both, and especially that of Picquart, shows the deplorable state into which the Dupuy ministry has come.

It is asserted that Dupuy will not scruple to use any means to hold out till the Dreyfus scandals are all aired and the decisions rendered, even if he has to appeal to the president and the senate to secure a dissolution of the chamber. But the government as well as the Dreyfusites are very strong in the chamber, and such a measure may not need to be resorted to.

It is stated that so acute has become the crisis before the nation that there are even mobs now being fostered for revolution, and that if the inevitable Dreyfus scandals do not end soon there will be an almost volcanic eruption that will place either a king on the throne or call for some sort of reorganization with a military dictator at the head—but that military dictator will be none other than the suspected of being involved in the Dreyfus affair, even now.

But none here knows whom to trust; every one seems to have been touched by the hand of infamy. The people, sickened, hate their rulers, they have contempt for the generals of their army, and they suspect the honesty of their courts.

IT IS GAMBLING

Dealing in Margins So Pronounced by Iowa Supreme Court.

Des Moines, May 11.—The supreme court of Iowa yesterday decided that a note or account for moneys involved in board of trade deals cannot be collected at law in this state. E. W. Gifford gave a note for \$425 to J. T. James & Co. of Des Moines to pay for margins advanced by the firm. The note was sold to the People's Savings bank, which sued. The court holds the transaction was purely gambling. It says: "Any purchase of property not intended to be actually delivered, or in which the settlement is to be made by paying the difference between the market values at the time of the deal and the time of settlement, is gambling, and debts thus incurred cannot be enforced at law."

Illinois Winter Wheat.

Springfield, Ills., May 11.—The state board of agriculture issued a bulletin last evening stating that of the 2,039,700 acres of winter wheat seeded last fall, 51 per cent was winter killed or so badly injured that it will have to be plowed up, leaving 1,000,800 acres for harvest. These figures differ considerably from the government report, which gives 701,000 as the reduction in acreage in this state.

Cabled Dewey.

Chicago, May 11.—The Illinois Manufacturers' association yesterday sent a cablegram to Admiral Dewey at Manila urging him to become the guest of the association upon his return from the Philippines, and suggesting that he adopt the San Francisco route, instead of coming by way of New York.

STRONGLY INDORSED

One Havana Paper Which Thinks Well of American Administration.

Havana, May 11.—La Patria, one of the best edited papers in Havana, comes out with an editorial strongly indorsing the American administration. Its utterances are regarded as representing the best thought of the thinking element of the community. The editorial says in part: "It is a shadow of doubt could remain as to the absolutely imperious necessity of the expulsion of the old Spanish regime in order that Cuba may have true liberty and progress, it must vanish when one analyzes the series of phenomena developed before our sight day by day. We are eliminating traditional impediments and getting rid of apparently impassable obstacles which four centuries of evil training in political administration had thrown in our path."

La Patria goes on to contrast the American method with that of the "obstinate Spanish" in dealing with even the simplest reforms.

Increase in Wages.

Chicago, May 11.—Notices were posted yesterday at the South Chicago and Joliet mills of the Illinois Steel company, announcing an increase in wages of the men. Common labor will be raised from 13½ cents to 15 cents an hour and all the other hands, except the tonnage men, will be increased in proportion. The increase, which is the second within the year, will go into effect on May 15.

SIGNAL CORPS

General Greely Receives a Report From Manila.

Washington, May 11.—General Greely has received a report dated March 4 from the chief signal officer at Manila showing what the signal corps has done during the early days of the campaign. During the military operations lines were constructed in every direction. Where they passed through thickly settled native districts they were often cut and communication was carried on by a system of rockets and other signals until they could be repaired. As the troops were advanced the telegraph wires were carried forward with great celerity. The report states that it is possible to reach any command, depot, outpost or individual line from 20 different telegraph offices, the only delay being consequent on the great volume of business and the necessity for precedence in order of importance.

WINTER WHEAT

Statistical Report Issued by the Department of Agriculture.

Washington, May 11.—The crop report for May, issued by the department of agriculture, follows: The May returns to the statistician of the department of agriculture show the acreage in winter wheat in cultivation on May 1 to have been about 25,900,000 acres. This is about 4,000,000 acres less than the area estimated to have been sown last fall, but it still slightly exceeds the area of winter wheat harvested last year. The reduction in acreage in the principal states, as compared with the area seeded last fall, is as follows: Kansas, 885,000; Illinois, 701,000; Indiana, 394,000; Missouri, 345,000; Texas, 227,000; Ohio, 149,000; Nebraska, 144,000; Michigan, 128,000; Wisconsin, 120,000; Tennessee, 105,000.

For the area remaining under cultivation, the average condition is 76.2 as compared with 88.5 on May 1, 1898 and 85.9, the mean of the average of the past 10 years.

The condition in the principal states, after reducing the acreage, as indicated, is as follows: Pennsylvania, 89; Maryland, 83; Virginia, 78; Texas, 67; Tennessee, 78; Kentucky, 76; Ohio, 82; Michigan, 60; Indiana, 68; Illinois, 54; Missouri, 65; Kansas, 64; California, 96, and Oklahoma, 86.

BROOMCORN

Dealers Advance the Price of Their Product.

Tascola, Ills., May 11.—Dealers and manufacturers of broomcorn from all parts of the United States met here yesterday and decided to advance the price of raw material 1 cent per pound. This makes the range from 7 cents to 9 cents instead of 6 cents to 8 cents. At the meeting the largest sale of broomcorn ever recorded was made. A number of manufacturers clubbed together and bought 500 tons at 7½ cents per pound, practically disposing of one-sixth of the entire visible supply.

Wants More Taxes From Railroads.

Lansing, Mich., May 11.—Governor Pingree announced yesterday that he would not attempt to get through this session of the legislature any taxation measure similar to the Pingree-Atkinson railroad taxation bill, which was annulled by the supreme court, as the time before adjournment was too short for consideration of such an important subject. He wants, however, to have a bill passed that will increase the taxes paid by railroads under the present law by about \$400,000.

N. RALPH MOORE succeeds Albert C. William as the proprietor of the Salem Daily Journal.

"DEMOCRACY has a future," says the New Albany Public Press. It likewise has a past, though that is not all pleasing history to the average democrat.

If General Miles had been as guarded in his public interviews a few months ago as he is now he would have appeared to a better advantage as a soldier and a disciplinarian. Some other officers might take a few lessons themselves.

BECAUSE the seditious pamphlets of Edward Atkinson were intercepted in the mails some of the admirers of Aguirre say that free speech has been denied an American citizen. They seem to think that liberty means license to do or say what one pleases against the government. During the civil war men who maintained such a position were called traitors and dealt with as such.

SAW THE MURDER.

Four Men in Cincinnati Claim to Have Seen the Shooting of the Man Found Near Ewing.

Coroner A. M. Veazey went to Cincinnati this morning to take evidence concerning the shooting of the man who was found dead by the railroad track near Ewing last week. Four men known as "Butch" Hazekamp, George Russell, George Sheridan and John Brewer were in a box car asleep on the night of the shooting. One of these men, John Brewer, says that when they reached Vallonia a man climbed into the car and asked whether anyone had boarded it a few miles beyond. Brewer told him that no one had and the stranger went to sleep. At Brownstown Brewer was awakened by the report of a pistol shot. He looked up and saw two men holding the stranger. Then another shot was fired and the stranger was pushed out of the car. Brewer claims a tried to interfere, but the men threatened to kill him if he did.

The four men who witnessed the shooting claim that they have seen the murderers in Cincinnati since they themselves arrived there and Dr. Veazey has gone to learn what he can of the reports. He carried with him the bullet that was taken from the body of the dead man.

The Banner this week says that "Postmaster Smith has received two letters asking for a description of the dead man. One was from Dr. T. M. Brown, of Oakland City, who thinks he might have been his nephew, who is missing. He states that the description of the clothing corresponds with the same his nephew wore; also that his nephew's left wrist had been dislocated, and there was a peculiar bump on the dead man's wrist which may have been caused by a dislocation. The other letter was from F. J. Zurb of Cincinnati, who fears it may have been his brother, but a picture he enclosed bore but a slight resemblance to the dead man."

The June Delineator

Combines an immense amount of authoritative and applicable advice as to what is newest and most beautiful in the world of Fashion,—including special illustrations of bridal costumes,—with a profusion of sparkling literary features, social, household and departmental hints and suggestions and fancy-work detail. A graphic picture of eastern conditions is presented in marriage in the Orient, by Laura B. Starr. Of a more distinct domestic character are the articles, A talk to mothers, by Edna S. Witherspoon, and Fiction novels, by Amelia Sulzacher. The departments Fancy Stitches and Embroideries, by Emma Haywood. Social observances, by Mrs. Fran Learned. The dressmaker, The milliner, crocheting, Knitting the latest books etc., etc., yield a rich grist of indispensable information.

Miss Girtle Hanson and Miss Ella Clarkson of Jennings county, came here today to see friends and relatives.

Henry Waldkotter and son Henry, of Brownstown township, came up today and favored the REPUBLICAN with a business call. Mr. Waldkotter is one of the most enterprising citizens in that part of the county. His sawmill is running constantly at full capacity. He is now sawing 60,000 feet of hickory lumber for Muncie parties.

The quartermaster-general has selected a new design of the State seal for the new buttons, and the new ones will be round-edged instead of having a plate edge like the old National Guard uniforms. The new ones will be very much like those of the Federal uniforms, only they will bear the seal of Indiana instead of an eagle. The seal on the new buttons is neat and distinct.—[Indianapolis News.]

A WOMAN YOU CAN'T SNUB.

Never Trifle With a Skinny Woman If Her Face Shines.

Do you know who is the most exasperating woman in the world? The woman you can't snub. She is two kinds—the meek and lowly sort, that when you snub her turns the other cheek until you're positively tired to deal her another blow, and the one whose self importance is invulnerable as Achilles' heel. I met one of the last kind early in the winter. On general principles I would avoid this woman, because she's skinny and her face shines. Something is all wrong about a skinny woman; one way or another she's dangerous.

When a skinny woman's face shines, it means she's above using powder and is sure to make a parade, as a virtue, of the very wrong that is to account for the lack of flesh on her bones. I couldn't help the woman calling on me, and I returned her first call rather than run the risk of what she might do to me if I violated this fundamental principle of right social action as prescribed by every etiquette book in the land. When she called a second time, she addressed me as "my good woman." I can forgive almost anything but being called a good woman. Only a mental or mediocrity past 40 is properly termed a good woman. I resolved to snub this creature, and I wanted her to know I was snubbing her. I would never return her visit—never. And how do you suppose she takes it? Every time she sees me she apologizes to me for not having returned my visit—blots my intended neglect of her out of mind and patronizes me with the assumption that it is she who is neglecting me. Mark the wisdom I have uttered.

Never trifle with a skinny woman if her face shines.—Washington Star.

THE MUSES.

Of old the muses sat on high
And heard and judged the songs of men.
On one they smiled who loitered by;
Of toiling ten they slighted ten.

"They lightly serve who serve us best,
Nor know they how the task was done.
We muses love a soul at rest,
But violence and toil we shun."

If men say true, the muses now
Have changed their ancient habitude
And would be served with knitted brow
And stress and toil each day renewed.

So each one with the other vies
Of those who weave romance or song,
'On us, O muse, bestow thy prize,
For we have striven well and long!"

And yet methinks I hear the best
Come murmuring down from Helicon,
"They lightly serve who serve us best,
Nor know they how the task was done!"
—Edith M. Thomas in Dial.

HE STILL LIVES.

A Case Where Medical Science Made a Little Miscalculation.

"Medical science occasionally makes a grand miscalculation," said an old citizen. "I never pass a certain house on lower Prospect street without remembering that 28 years ago a certain noted doctor of this town—he died recently—condemned me to death. 'You have but a week to live,' he said."

"This was information of somewhat serious import to me, although, at that time, I didn't much care whether it was a week or a month. I went to another doctor. 'Are you really frightened?' he asked. 'No,' I said; 'I've got beyond that.' Then he remarked, 'You can't last a month.' Somehow this corroborative testimony didn't satisfy me. Before I got through my search for information I consulted eight doctors. And, by the way, I was hunting through the second week before I made the rounds. Of course they all agreed pretty well. The most liberal man of the lot said I might pull through for a year, but he greatly doubted it. The other medicals gave me from a week to three months."

"Well, sir, I've attended the funerals of five of those doctors, and, please God, I'll see the other three under the sod before I quit."

"Understand me—I was a pretty tough object at that time. A bronchial trouble had worn me to skin and bone. I walked with a crutch and a cane. I could scarcely talk. All the doctors agreed that my lungs were past mending. Five of them said I had but one lung left, and that, they claimed, was on its last legs."

"Well, when I went to the ninth doctor, I was mad clear through. I knew he didn't have a blessed idea concerning my case. But he tried hard to look knowing and went back to his little drug tank and presently returned with a neat package wrapped in white paper. I handed him the \$2 he demanded and walked away. 'Here,' he said; 'you've forgotten your medicine.' I turned back. 'No, I haven't,' I said hotly; 'I left it there purposely. Give it to the next credulous fool whose case you don't understand.' Say, it did me good to get mad. I went home, chucked every drug into the ash barrel, staid out in the open air all I could, wasn't the least bit careful about myself, worked about the house every day until exhausted and began to get better. By George! Inside of a year I was in tiptop condition! Look at me now! Sound as a dollar! Yes, sir, science does occasionally slip up with considerable unanimity."—Cleveland Plain Dealer.

Elephants Hate Camels.

Elephants have the bitterest enmity to camels. When the camel scents the elephant, it stops still, trembles in all its limbs and utters an interrupted cry of terror and affright. No persuasion, no blows, can induce it to rise. It moves its head backward and forward, and its whole frame is shaken with mortal anguish. The elephant, on the contrary, as soon as he perceives the camel, elevates his trunk, stamps with his feet, and with his trunk thrown backward, snorting with a noise like the sound of a trumpet, he rushes toward the camel, which with its neck outstretched and utterly defenseless awaits with the most patient resignation the approach of its enemy. The elephant, with its enormous shapless limbs, tramples on the unfortunate animal in such a manner that in a few minutes it is scattered around in small fragments.

When the Kettle Sings.

The reason why hot water makes a shimmering noise is a very simple one. As the water heats, little bubbles of steam are formed at the bottom of the kettle. These rush upward and, being attracted to the sides of the kettle, they make a commotion which sets the metal in vibration and the kettle "sings."
